KEEP AMERICA BEAUTIFUL AFFILIATE

Keep Stockwell Beautiful, Inc or KSB was established in 2005 under the name of the Stockwell Beautification Project. Their focus was enhancing the natural beauty of our small Indiana rural community.

In 2007, Keep Stockwell Beautiful, Inc. became the smallest Affiliate in the Keep America Beautiful Family. Since then, KSB has won 3 National Awards and 4 State/Local Awards for their work in recycling, beautification and education in the environmental field.

KSB partners with local agencies and entities to promote Environmental Stewardship for the entire Stockwell Community.

KSB is sponsored through the John and Ruby Parks Foundation.

KSB Programs

Cole Kids' Cleanup Stockwell

In 2008, what began as a single classroom helping clean one house in Stockwell, has developed into an award-winning Youth Project. The 4th and 5th grade students from James Cole Elementary walk to town each fall to help with cleanup and flower planting. In 2009 this program was selected as the Indiana Subaru Environmental Stewardship Award for their dedication to the Stockwell Community. In 2014, Keep America Beautiful awarded Cole Kids' the highest Youth Award.

Roadside Cleanups

Roadside Cleanups are scheduled with individual families or groups. If you or your group are interested in helping with a Roadside Cleanup, please email us. No long-term commitments.

Bulky Trash/Tire Collection

One of the most popular programs that KSB offers is our Fall and Spring Bulky Trash Collection. This FREE program offers residents the opportunity to dispense of non-hazardous household items and tires. The event is held at Cole Elementary Parking lot the first Saturday of Spring Break and the Saturday of Fall Break.

James Cole Elementary Outdoor Education Center

Recently named the Outstanding Outdoor Learning Lab in the State of Indiana, this 5-acre gem was taken over by KSB in 2006 to assist with revitalization. Since then, over \$100,000 in grants have been raised and countless volunteer hours have brought this area back to life. The center has designated areas for pollinators, rain garden, bat house, wetlands, amphitheater, observation deck, and a stocked pond. Visitation is by invitation only.

America Recycles Day

November 15 is National America Recycle Day. KSB is an active participant in this event. Recycle Mania is a recycling education program that is offered to Cole Elementary 3rd graders each year on this date. Children learn the importance of recycling, what can be recycled in our community and play games that encourage recycling.

Recycling Center

Thanks to the Tippecanoe County Commissioners and the Solid Waste District Stockwell was chosen to be a Recycling Center. Currently the following items are accepted at the bin.

Did you know.....

- Stockwell's Town Tree is the Pin Oak, Bird-Downey Woodpecker, Flower-Purple Cone Flower.
- Over 7 MILLION Pounds of Recycling have been collected.
- Over 5,000 volunteer hours have been logged since 2007.

Volunteer Opportunities

If you are interested in volunteering for any of the programs sponsored by KSB, please contact us below.
